

A Major Buyback of Hallmark Cards!

TOO LATE!

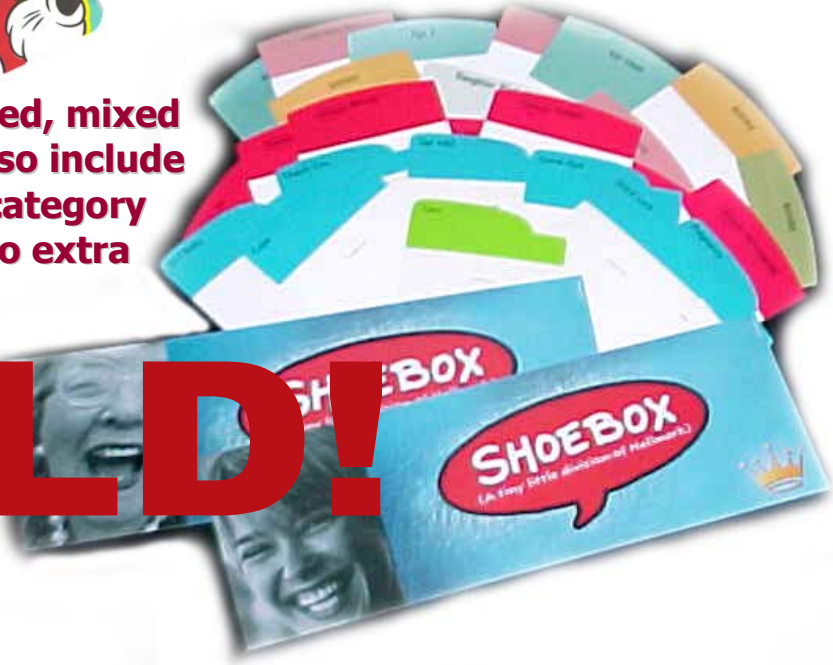

This is a completely assembled lot pulled from the shelves of one of the nation's largest fulfillment centers. About 50% of the inventory is greeting cards. The remainder is loaded with many of the desirable Hallmark products: wrapping paper, gift bags, plus ornaments and picture frames.

Each case of cards averages 700 cards and envelopes (we know: we actually counted some!) and each pallet averages 30 case and is at least five feet high! The inventory is 100 pallets- that's a minimum of 3,000 cases and because this is a new deal, there is very little warehouse dirt or damage to the case.

SOLD!

Not only are the envelopes included, mixed into each case, but many cases also include attractive Hallmark signage and category backer cards as well! All this at no extra charge!

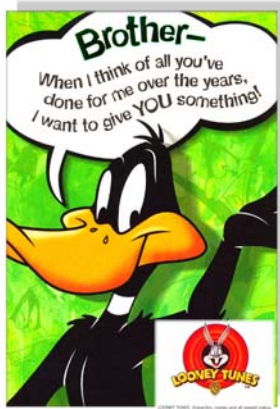

SOLD!
